

TCKT

Transfercenter für Kunststofftechnik GmbH

Member of
UAR INNOVATION
NETWORK

What can we do for you?

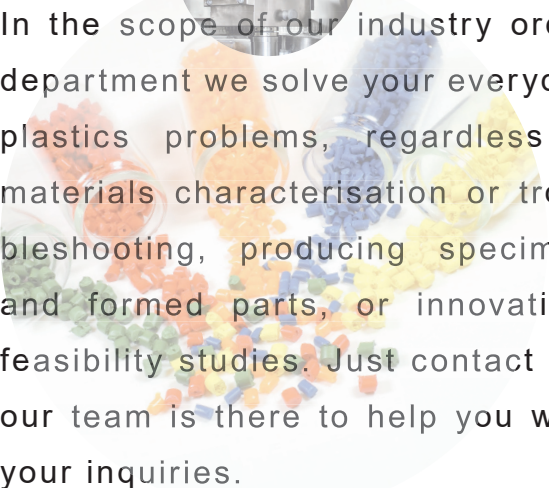

The TCKT is your first address for application oriented research and development regarding plastics engineering and technology. We help you develop solutions for your plastics problems within our research projects, but you are also welcome to use our offer of industry contractual work, regardless if it is for single tests or longer studies.

Team

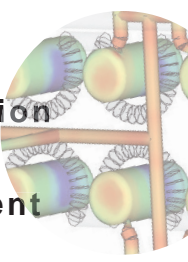

Industry orders

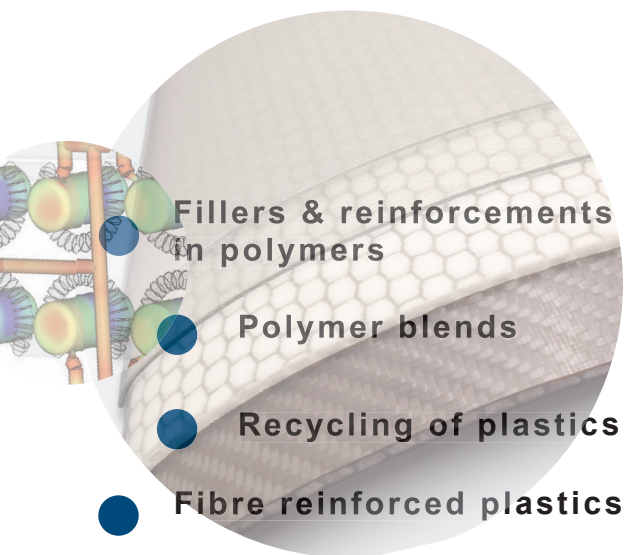

In the scope of our industry order department we solve your everyday plastics problems, regardless if materials characterisation or troubleshooting, producing specimen and formed parts, or innovative, feasibility studies. Just contact us; our team is there to help you with your inquiries.

- 
- **Materials characterisation**
 - **Materials development**
 - **Processing techniques**
 - **Composite**
- 

Research projects

In the area of research projects we work on R&D-problems which need more effort and take longer and approaches to solve these will lead to products eventually. On the other hand, we are working on fundamental issues in our field to be prepared for the applied research questions of the future, so we then can provide fast and reliable solutions. Have a closer look at our research topics.

Where to find us?

In the heart of the Upper Austrian plastic industry.

phone: +43 7242 2088 1000
